

WiFi and Internet

Wi Fi is available by connecting to 'Robin-Hill-Guest'

Typical download speed is 20 to 25MB, which is sufficient to stream 5 HD movies at the same time or watch 4K TV.

Playing online games, Facebook, Zoom and such like should all be easy.

If your mobile phone signal is poor inside the house, I would recommend enabling WiFi calling.

The password was sent in the information email a week or so before your holiday.

Alternatively email us at info@Robin-Hill-Cornwall.co.uk

WiFi and Internet Problems

*If you experience a problem with the WiFi, please check if the TV's are able to show YouTube, iPlayer or an internet service
– This will help us understand if the issue is with the Internet or just with the WiFi*

Please email us at info@Robin-Hill-Cornwall.co.uk or call 07910 156 470
